<b>Office Action Summary</b>	Application No. 10/722,174	Applicant(s) KING ET AL.	
	Examiner Nicholas A. Smith	Art Unit 1795	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### Status of Claims

1. Claims 14-34 remain for examination.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 14-31 are rejected under 35 U.S.C. 102(b) as being anticipated by Andricacos et al. (US 5,352,350).
4. Andricacos et al. is applied to the claims for the same reasons as stated in paragraph(s) 5-11 of the previous office action.

### ***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

a. A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 32-34 are rejected under 35 U.S.C. 103(a) as being unpatentable over Andricacos et al. in view of Chung et al. (US 6,409,903).
7. Andricacos et al. in view of Chung et al. is applied to the claims for the same reasons as stated in paragraph(s) 14-16 of the previous office action.

***Response to Arguments***

8. Applicant's arguments filed 4 September 2007 have been fully considered but they are not persuasive. In regards to Applicant's argument that Andricacos et al. does not explicitly disclose a regression analysis, Applicant is reminded that even though the prior art does not use the term "regression analysis" explicitly, Applicant is reminded that regression analysis includes predicting a dependent variable based on a independent variable, and, Andricacos et al. gives an explanation in col. 7, line 65 to col. 8, line 2, wherein an equation coefficient (k) is determined empirically ( $\Delta s$  is change in process service, i.e., plating current, the wafer-based independent variable). In regards to Applicant's argument that the Chung et al. reference is unnecessary because Andricacos et al. already provides workpiece plating, Applicant is reminded that Chung et al. more specifically states the method of plating the workpiece, i.e. a seed layer on the workpiece and that such a method is not taught away from by Andricacos et al.

***Conclusion***

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

10. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nicholas A. Smith whose telephone number is (571)-272-8760. The examiner can normally be reached on 8:30 AM to 5:00 PM, Monday through Friday.

12. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Susy Tsang-Foster can be reached on (571)-272-1293. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

13. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
